"Microsoft 365, Dynamics 365, and the **Power Platform** on top of what we're doing with Azure is the core of what we are doing as a company vis-à-vis I would say our commercial customers – businesses of all sizes, whether it's small business, large business, whether it's in an emerging market or in a developed market."

*--Satya Nadella, speaking in January 2019
to a group of reporters on campus*

Empowering your next big opportunity

"**Microsoft 365, Dynamics 365**, and the **Power Platform**, on top of what we're doing with **Azure**, is the core of what we are doing as a company."

--Satya Nadella

"We needed to really **enable the portfolio and not solve just one business problem**. Our business problem became **how do we build a thousand apps at scale, not how do we build one app?**"

--Warren Bryant, **Chevron**
